

## Hawkesbury City Councillor Zamprogno interviewed on Hawkesbury Radio on corridor reservations

### Description

I was pleased to be invited by Gary Cotter from Hawkesbury Radio today and talk to him about the State Government's announcements of land reservations for both the Castlereagh corridor (Bells Line of Road) and the Outer Sydney Orbital (M9) corridor.

Both these announcements may have substantial impacts on the Hawkesbury. On the one hand, governments should be praised for forward, generational thinking. On the other hand, their claim that the chosen locations were based on extensive community consultation is completely false.

Listen along to the interview (<14min) and tell me what you think. There will be much more to say about this soon!
