

Straight talk about Development

Description

I was with Garry Cotter being interviewed at [Hawkesbury Radio](#) and the subject turned to development in Sydney generally, and the Hawkesbury in particular. How can we balance the destruction of urban sprawl with Sydney's need for housing?

On reflection, I thought this two-minute segment sums up where I'm coming from.

Where do your other [Hawkesbury Councillors](#) stand on this and other issues?

Do they ever publish? Make videos? Do interviews? Speak publicly?

You're entitled to know where your elected representatives stand on issues. If you want my view on an issue that isn't already written about on this site, [just ask](#).
